We had a great experience with Revildor from the our first meeting to completion of our roof. Luis, Kathy and Victor kept us informed and alleviated our concerns. Everything was done as expected and no damage was done to our home. Victor was on site throughout the whole process and made sure things went smoothly and answered any questions that we had. They completed our roof in less than two days and clean up was done well. We are very happy with our new roof and would highly recommend Revildor. Don't hesitate to call Luis for a quote. Everyone was exceptional!

Excellent service, communication and great crew that did a very thorough job on our much needed roof! Kathy was outstanding in staying in touch before, during and after the project was completed. They did find damaged wood that was replaced and sent us all the pics to prove it as well as before and after photos plus scheduled the inspections and wind mitigation- all and all it's was a very professional experience and got the job done in 2 days. Highly recommended!

As a recent widow, there was much around the house I was totally ignorant about: the roof, definitely. When faced with the need to inspect and possibly replace the roof, I panicked. Fortunately, I knew of Revildor and turned to them at the peak of my frustration and anxiety. The team quickly assessed my situation, provided me with various options and kindly guided me through the process helping me make the best decision. Once the project began, their care and concern continued. The work crew arrived on time and were polite, diligent, and efficient. The job was completed quickly, they cleaned up everything and left me with a beautiful new roof! I would not hesitate a minute to recommend them. From office staff to project crew, they are simply wonderful!

The Revildor team (Kathy, Luis, and Victor) has been great to work with from start to finish. Their communication, pride of workmanship, and value is unbeatable. We've interviewed several "ambulance chasing" roof companies after our recent hail storm and Revildor's non-pushy approach and honest assessment is what attracted us to them. We've heard several horror stories of neighbors dealing with their roofers and we are so glad we chose Revildor. I highly recommend them!

I was referred to Revildor by one of my coworkers and I am so happy that I chose this company to complete my new roof after an unforeseen and damaging hailstorm. Luis, Kathy and Victor were very professional from the start all the way to the end of the project. The Revildor team answered all of my questions throughout the process and kept me informed every step of the project.

I am very please with my new roof and the roofers and Victor did an amazing job while keeping my yard and driveway clean and maintaining the upmost professionalism during the 2 day project. I would highly recommend Revildor to anyone who is in need of a new roof or repairs as they make sure to go above and beyond for their customers.

I recently reroofed my home in the Oviedo area with Revildor, and it was extremely pleasant to work with Kathy and her team throughout the whole project. I am a real estate investor based in California, and was able to coordinate the entire effort seamlessly from estimates, material/color selections, paperwork, and having the Revildor team work with my local property manager in the Oviedo area. The final price was exactly what I was quoted, and a very reasonable price at that!

Update March 2019 - Revildor had now done a roof on our other home and we couldn't be more pleased! Once again, they exceeded our expectations. I highly recommend them for their attention to detail, professionalism, quality product, and fairness.

Our roof was heavily damaged by Hurricane Irma. We called Revildor and they came right out to inspect our roof and give us an estimate. The new roof looks amazing! Through the entire process of working with them and dealing with the insurance company, Revildor was professional, accommodating and efficient. I would recommend them to anyone in need of roof repair or replacement.

This is wayyy over due .. what a pleasure to work with Diana, Luis and team at Revildor. First of all they were patient as we were going back and forth with an insurance claim. After nearly a year we were finally able to setup to replace our roof. From beginning to end they answered all questions about the process, forms, selection of roof type and etc. The install was great and the clean up perfect. There was an unexpected issue from the install however with their professionalism they handled it perfectly and stress free. We would use them for all roof needs and replacement again and highly recommend to others. Gracias Diana & Luis for everything.

Luis, Diana and Kathy are extremely nice, polite and honest people and it shows in their work. I had to replace the whole roof. They gave me very competitive pricing; the team came, completed the job and cleaned up very well. I was impressed that my calls and emails were responded very quickly. I am very pleased with the finished work and the interactions with the company.

I had significant damage to my roof from hurricane Irma. I obtained 4 bids to replace the roof and selected Revildor due to their upfront professionalism. The work was done in a timely fashion and at a cost acceptable to me.

The office personnel and roofers themselves truly know the meaning of customer support and communicated with me well during the process. I had extensive solar panels that had to be removed first and Revildor worked with the company I hired with the removal and replacement.

I do want to add that the roofers themselves were extremely hard working, taking only a break for lunch. They also did a superb job of cleanup afterwards.

You could not go wrong with hiring Revildor.

We were out of town during Hurricane Irma so when we arrived and noticed damage to our roof we immediately contacted Revildor. They were on the roof 48 hours later, which is simply amazing. Their inspection was thorough and they provided recommendations on the spot. 24 hours after that we had a formal proposal with complete costs estimates and photos. I would recommend them without hesitation.

We had the pleasure of working with Revildor for a re-roofing. The work and process beyond exceeded our expectations. Great communication, workmanship and value!. From beginning to end this team is A+. From the initial estimate, Luis was very detailed, courteous and explained the process well. Kathy was prompt with her communication, very organized and thorough. The crew was punctual, and the job was completed with high quality. The onsite manager, Victor, was there the entire time making sure the job was being done to standards. Everything was clean and pristine at the end (they even cleaned debris that had fallen in our neighbor's yard!). This team takes pride in their work, and it shows! Highly recommend.

I had a great experience with Revildor. The onsite project manager was here the entire time making sure the job was done right. Luis took multiple calls to help me understand the product, warranties, inspections, etc... Kathy was amazing and stayed in touch throughout the process. The inspections were signed off by the city with no issues. They completely cleaned up my property and the neighbor's properties of debris and left my place the way they found it. I am very happy I selected this company to do the work. In the meantime, a home 2 doors down where the re-roof being done by another company which started a week before mine is still sitting with tarps on the roof and failed inspections. I made the right choice selecting Revildor.

Revildor is a very professional company from the estimate, through the new roof installation and final sign off on the work. They took the time to explain details about the work. They also took before and after pictures of the roof for my records. There was one little mistake in the process but they acknowledged it right away as their error. You can hire this company with confidence they will do an excellent job!

It was evident throughout the course of the job that every employee at this company takes great pride in their work and truly cares about creating a great outcome. From our initial visit with Luis, Kathy being our contact person and dealing with insurance, and Marco Supervising the work the experience was superior! They were extremely professional, great communication, and professional roofers! They were also very concerned about keeping our home and yard as clean as possible. Our roof is absolutely beautiful. Revildor takes 5 stars in all categories. It is the best roofing company I have ever dealt with in 31 years in Florida and having done several reroofs. The inspector even took his time to let us know they had gone well above code and was truly impressed with their work. It is the only company I will refer from now on.

Choosing a roofing contractor can be a daunting task. I had no idea what to ask and what to look out for. Revildor was highly recommended by good friends and after looking at all the positive reviews online, I took a chance on Revildor Roofing. From the get-go, their service was stellar. Every person in that company was professional, courteous and simply wonderful to work with. Their prices were extremely fair when I compared them to four other estimates I had done. Remarkably, after putting an entire long hot and hard days work in they took time, each night, to clean up around the entire house and make it look impeccable. One gentleman in particular went out of his way to help me resolve an issue that could have been a huge headache to me. Thank you Juan! I cannot say enough wonderful things about these people. And how important it is these days, to support a family business instead of a giant conglomerate.

Their team was fantastic. I had to get a new roof after Hurricane Irma hit the Central Florida area, less than a month after I purchase my first home. Needless to say, this was a first for me and I was beyond confused by the roofing process. However, Diana and the entire Revildor Roofing team talked me through each step of the process and communicated with me what actions I needed to take along the way. I recommend this team to anyone who has a roofing need. They are incredibly well knowledgeable and patient with first times.
